Mr. William Bryson  
 Director, Office of Environmental Geology  
 Kansas Department of Health and Environment  
 Forbes Field  
 Topeka, Kansas 66620

KSD 007482029

Dear Mr. Bryson:

We understand that your office is considering the recommendations we made in our letter of April 24, 1984, to you on the Vulcan Materials Company facility in Wichita. Please provide us a list of the specific steps your Department has taken to implement any of our recommendations. Please advise us of what recommendations you have not followed up on, along with any justification you can provide. I am requesting this information be provided at your earliest convenience, but no later than close of business September 25, 1985.

Please note, item number 6 requested a copy of 1983 and 1984 monitoring data, which was not available at the time of our previous review. We have yet to receive any of this additional requested data and reiterate our request at this time. Please contact me at (913) 236-2856 regarding any questions regarding this request.

Sincerely yours,

Robert L. Morby  
 Chief, Superfund Branch  
 Waste Management Division
